

Bimetal Thermometers - Model A43

Standard Version

The model A43 bimetal thermometer was developed as a standard version for simple temperature indication in heating applications.

Its modular design enables a multitude of combinations of case materials, nominal sizes, scale ranges and stem lengths. This ensures that the basic dimensions are maintained.

The standard scope of delivery of the model A43 includes a thermowell. The thermowell can be operated with an operating pressure up to a maximum of 6 bar.

The model A43 is manufactured to tolerance class 2 in accordance with EN 13190 and thus offers the required indication accuracy for heating technology.

Measuring Principle	Bimetallic						
Case	Plastic			Aluminium			
Accuracy	Class 2 to DIN 16203			Class 2 to DIN 16203			
Case Diameter	63mm	80mm	100mm	63mm	80mm	100mm	160mm
Thermowell	Brass : clip-on			Brass : secured with pinch screw			
Bulb Location	Axial			Axial			
Range	0/120°C			0/120°C			
Thermowell connection	G1/2B			G1/2B			
Immersion $l_1 = 40\text{mm}$	£11.50	£13.00	£17.30	£22.40	£24.30	£26.60	-
